**UNITED STATES DISTRICT COURT
CENTRAL DISTRICT OF CALIFORNIA**

Stephen Paul Watson, Pro Se.

Plaintiff

v.

US Department of Justice

Defendant(s).

CASE NUMBER:

To be supplied by the Clerk of
The United States District Court

**COMPLAINT FOR VIOLATION OF
RIGHTS
(Non-Prisoner Complaint)**

Background

Page 4

CAUSE OF ACTION 4

On 04/03/2024 at 11:54 PM while parked in the Target parking lot in Azusa, California I was targeted with a directed sound device. I was using the Wi-Fi and a high pitched tone could be heard panning back and forth in both ears. i.e a psychoacoustic sensation. The windows were rolled up. It was loud, nothing subtle like outside noise or a loud sound coming from one direction. The sound appeared to be controlled by technology to create the panning effect. I took out my laptop and started recording to see if the laptop microphone would record the audio and I could hear the tone once amplifying the audio. It is believed a directed sound device similar to LRAD was used. According to articles the panning effect like stereo is a directional “ flashlight ” beam. Law enforcement has access to this technology. Intermediate force was being used to try and discourage me from using the Wi-Fi for posting online/ free speech. Controversy - Concern over LRAD causing hearing damage according to ACLU. The LAPD has LRAD systems in its inventory accesible by the Azusa Police Department. If LRAD was coming from the LAPD then this points to DHS Fusion Centers and the FBI ’ s Joint Terrorism Task Force (JTTF) meeting state action requirement.

LRAD weapons are not used by citizens.

LRAD to interfere with free speech would be violating the First Amendment; selective enforcement.

Fourth Amendment - No probable cause or warrant to disturb Plaintiff inside car employing non-lethal weapon.

Fifth Amendment due process clause. Weapon was used without charged with crime or handed down a punishment.

14th Amedment - Lacks equal protection.
